

PROG7311 – POE Part 2 – Read Me

By Troy Harris – ST10081994

The FarmCentral application was developed as an ASP.NET Web Application (.NET Framework) using the framework, 4.7.2.

In order to run the application, the application folder will need to be cloned from either GitHub or downloaded from VC Learn.

After the file has been downloaded, the application will need to be opened in Visual Studio.

Once open in Visual Studio, the green play button that has IIS Express written next to it needs to be clicked to run the application. Once the web application has loaded in the browser, you can click on the Login option in the navigation bar and make use of the account details provided below to sign into either the Employee side of the application or the Farmer side of the application:

Farmer Login Details

Username: farmer
Password: 1234
Recovery Key: RK-zscp2166UM

Username: rudolph
Password: 1234
Recovery Key: RK-fzjs1424VD

Username: farmer1
Password: 1234
Recovery Key: RK-ogvr8946CQ

Employee Login Details

Username: employee
Password: 1234
Recovery Key: RK-gqmt6439YE

The recovery keys defined above for each user account can be used to reset the password of a particular user account.
